

PG&E Health Screening Options

To earn 2018 Health Account Plan credits

Deadline: September 30, 2018

Option 1: On-site Health Screening Event (recommended)

On-site screenings are conveniently located on-site, with the opportunity for you to discuss your screenings results with a qualified health coach. You can also get your flu shot at events with 50 or more screening participants from October to January.

- Log on to pge.provantone.com and click the heart stethoscope image at the center of the homepage to find an on-site screening near you.
- For screening events with online registration, click **Register for a Screening** under **My Events** at least 24 hours in advance of the screening date.

Option 2: Your Health Care Provider Completes Screening

Develop a good relationship with your doctor who can help you better manage and coordinate your healthcare. Complete your health screening during an office visit with your health care provider with one of your four free primary care visits through the Health Account Plan.

- Log on to pge.provantone.com, click **Physician Form** under **My Resources**.
- Print a **Physician Form** and bring it to your health care provider to complete and send to Provant.
- For the tobacco screening, please go to pge.provantone.com and click the heart stethoscope image at the center of the homepage to find an on-site screening near you; no appointment necessary for the tobacco screening only.

Option 3: Remote Concierge Health Screening

If you're unable to take advantage of Options 1-2, remote concierge screenings can be completed at your worksite or home.

- Request a remote concierge health screening appointment at least two weeks in advance by calling Provant on or after September 18, 2017, at **1-866-271-8144, option 2**.
- You will receive a call back within two business days of your request with your confirmed appointment date and time. If you have colleagues who also need a remote concierge screening, Provant can schedule them at the same time.

Questions? Contact Provant at **1-866-271-8144, option 2** or
